

How to Forward Emails in Apple Mail

Forward suspicious emails to:
`check@scam.support`

Don't click any links inside the email — just open it and forward it.

- 1 Open the suspicious email**
In the Mail app, click on the email you want us to check.
- 2 Click the Forward arrow**
Click the forward arrow in the toolbar, or press Shift+Cmd+F.
- 3 Enter our email address**
In the To field, type `check@scam.support`
- 4 Click Send**
Click the Send button (paper plane icon). Reply in ~60 seconds.
